

General Manager | Export Meat Processing Facility | Greenfield Site | WA

- Kimberley WA Location
- Very attractive salary package for the right person
- Join a company poised for major growth in a key role from the ground up
- Make your mark on the company's success

Shed 7 is a full service recruitment company focused solely on all links in the food and fibre supply chain. We are currently partnering with an exciting and driven client that is looking for a **General Manager** to take a leading role in finalising the establishment and subsequent running of a state of the art beef processing facility located between Broome and Derby in WA's Kimberley region.

This business has a solid beef production base with over 95,000 head of cattle on its own stations and very solid international partners eager to make the most of growth in the region just to the north and further afield.

Entering the business at a critical stage, this is a senior management position that reports directly to the Board of Directors with the establishment of best practice and a fantastic culture being at the core.

RESPONSIBILITIES:

- Managing the business and the facility through the final stages of the plant build
- Development and ongoing analysis of budgets and financial statements to forecast and monitor the financial position of the facility
- Promoting efficiencies through the development, implementation and continual improvement of systems and processes
- Establishing and maintaining legislative, market and client compliance.
- Ensuring the safety of staff working in and visitors to the facility through the overseeing of the development of and implementation of Workplace Health and Safety systems
- Leading a culture where all staff know they are valued and part of a team that is focused on achieving the same goals
- Working with the Board of Directors on projects and activities as required
- Working with the sales team to develop products for new and existing clients whilst delivering consistency

KEY CRITERIA:

- At least 3+ years at plant management or above level in an export meat processing facility
- Experience in building and implementing organisational plans and systems and processes
- Leadership experience in setting and monitoring performance of large teams whilst mentoring and motivating them to continually improve
- Management experience of the supply chain and its logistics
- A problem solving mentality with agility to build and continually analyse and improve current practices
- Strong verbal and written communication and presentation skills up and down reporting channels
- Solid experience in client and market legislation, auditing and compliance
- A high standard of computer literacy

And

- Passion, hunger and desire to be part of something new, ground breaking and exciting where you are likely to make a greater impact than anywhere else in the meat industry

COMPETITIVE SALARY & RELOCATION PACKAGE:

- Very attractive salary package for the right person
- Short-term accommodation on arrival with longer term options available
- Use of vehicle
- Relocation allowance

A great team is the key to new facility's and therefore the whole business success. The client understands that employment is a partnership and is committed to offering a positive work environment, continuous learning and appropriately rewarding the people who are key to this success.

Applications (including a covering letter and resume) should be forwarded to:
