

Trainee Beef Cattle Technician

- Location Central West - NSW
- On the Job training
- Highly regarded business

This unique position is based in the Central West of NSW. We are looking for a trainee to assist within a Beef Cattle Artificial Breeding Business. The job will include training in and leading to conducting Artificial Insemination, Ultrasound Pregnancy Scanning, Semen Testing and Freeze Branding with cattle.

What we offer you:

- Wage negotiable with experience and ability
- Training, career development and advancement opportunities
- Friendly, supportive team working with some of the top cattle producers in the industry

This role offers a great opportunity to work in an exciting part of the booming beef cattle industry, with scope for advancement after training and experience.
