

## Business Analysts

### The Company

Gunn Agri Partners (GAP) was established in 2013 and provides agricultural investment and farm management services for Australian, North American and European investors. GAP manages \$800M of assets and commitments managed by the following platforms (Operating Companies):

- Cunningham Cattle Company: extensive cattle operations in far north and southern Queensland.
- Faulkner Farming: cropping and grazing operations focused on regenerative farming practices and management of carbon and biodiversity assets in NSW, Qld, SA and WA.
- Wollemi Farms: a portfolio of permanent crops and water assets in Northern NSW and Qld.
- Wilga Farming: investing in cropping, operating and leasing grazing areas and managing natural assets such as carbon sequestration and biodiversity.

### The Position

Our company growth has led to the creation of new positions within our business model for Business Analyst experts within each of our operating companies. We are seeking people to join our team to actively manage the exchange and flow of information from production through to the GAP team within defined timeframes to ensure that reporting requirements are met. Each position will work closely with the operations and finance teams and act as the critical link of data transfer within the business. The positions will also support the platform General Manager and Property Managers with managing the P&L and capex budgets, carrying out due diligence by preparing investment analysis to support development activities, critically analyse financial and production data and other analytical tasks as required. The Business Analysts will provide support for the integration of new assets into our expanding platforms. This is a full-time employment opportunity.

The key responsibilities will include but not limited to:

- Assist the General Manager & Managers to develop annual operating budgets while ensuring budgets are accurately entered into farm management software.
- Ensure accurate and timely reporting of all activities, expenditures, and performance against agreed budgets, project development and capital expenditure, including updating forecasts as required.
- Assist in the preparation of capital expenditure plans and proposals, while ensuring information flow between operating company management and GAP.
- Critically evaluate business proposals and provide input to the decision-making process.
- Refinement of preliminary production and financial models, operational strategies, business management and risk management plans, ensuring they accurately reflect agreed business plans.
- Carry out research into the supply and pricing of farm inputs and provide options for the business.
- Provide support for the management team(s) to ensure business continuity throughout any acquisition process and assist with asset integration following the completion of the acquisition process.
- Build and promote the business's presence, developing strong business relationships with stakeholders.

- Monitor and identify emerging issues, trends, and technologies and recommend strategies to ensure the business is well-positioned to take advantage of innovation.
- Other specific operating company requirements –
  - Cattle Platform - Livestock administration and quality assurance.
  - Farming Platform - Understanding of mapping and interpretation of agronomic data.

## The Candidate

To be successful in the role you will need to demonstrate the following:

- Tertiary qualifications in Agriculture/Horticulture, Science, Business or Economics.
- Knowledge of farming operations for the respective operational company.
- High level proficiency in Microsoft office products; Word, Excel, PowerPoint and Outlook.
- Experience or knowledge in financial systems and operational systems.
- Impeccable attention to detail and analytical skills.
- Proven ability to build and maintain strong internal and external relationships.
- Self-starting and motivated, and ability to focus on multiple tasks.
- Superior time management and prioritisation skills to meet deadlines.
- Excellent verbal and written communication skills to keep stakeholders engaged and updated.
- Strong team orientation and the ability to work with and through others to achieve results.
- Current driver's licence and ability to undertake frequent travel.

## The Location

The role is available to be based at our office in Bondi Junction or Albury location.

## Remuneration and Benefits

An attractive salary package will be negotiable with the successful candidate based on experience and qualifications. Flexibility of hours will be offered. The company will financially support the successful candidate to undertake further studies relevant to the position and or in line with career and business objectives.

## To Apply
